

COA 616 Geostatistics in Environmental Sciences

Guidance for the first presentation on final project (November 1, 2016).

This will be counted as 10 pts in your final grade. Take it seriously!

The presentation is expected to include the following sections:

- 1) Informative title (1 pt)
- 2) Introduction: Providing background of your research (2pt)
- 3) Objectives and/or hypotheses (1 pt)
- 4) Data and methods: including the map of your study area and data posting (5 pts)
- 5) Expected results: including tables and figures (1 pt)

Each of you will have at most 15 minutes to present.

Send your PowerPoint presentation to me before 7:00 am Tuesday morning (November 1). I can set them up on the computer so the presentation will be smooth.
